## IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Patentee : Trumpf Photonics, Inc.

Patent No. : 5,818,860 Application No. : 08/757,883

Issue Date : October 6, 1998 Filing Date : November 27, 1996

Commissioner for Patents Washington, D.C. 20231

## DECLARATION PURSUANT TO 37 C.F.R. §1.175

We, Dmitri Zalmanovich Garbuzov, Joseph Hy Abeles, and John Charles Connolly, declare that we believe we are the original and first inventors of the subject matter that is described and claimed in United States Patent No. 5,818,860 (the "'860 patent") for which we solicit a reissue patent; that we have reviewed and understand the contents of the enclosed reissue application, including its specification and claims; that we acknowledge the duty to disclose all information of which we are aware that is material to the examination of this reissue application in accordance with 37 CFR §1.56(a); that the '860 patent is partly inoperative by reason of claiming more than we had the right to claim; and that the inoperativeness is a result of error that arose inadvertently and without deceptive intention.

The errors that are the basis for this reissue application, and the resulting partial inoperativeness of the '860 patent, arose without deceptive intention and can be summarized as follows. After issuance of the '860 patent, we realized that several references, which were not part of the file wrapper, may be material to the validity of at least some of the claims of the '860 patent. We believe it was an error that these references were not considered by the patent Office during prosecution of the application that matured into the '860 patent.
